

Establishing an Environmental Advisory Committee in the RM of Lakeland

Table #1 - PARCS Convention 2010 - Members Fair

The R.M. of Lakeland established an Environmental Advisory Committee in 2009. The following information outlines the guidelines for the operation of the committee. I will be pleased to share information on activities of the committee during the last couple of years.

The guidelines for the Environment Advisory Committee include the following:

1. Representation on this Advisory committee would consist of appointments made from cottage owner and condo associations in the following manner:
 - Emma and Christopher Lakes Cottage Owner Association – 4 members
 - Anglin Lake Cottage Owners Association - 2 members
 - McPhee Lake Cottage Owners Association – 2 members
 - Elk Ridge Condo Associations – 1 member for each association

Appointments may be fewer than shown above but may not exceed the numbers and appointment must be from within the association they represent.

2. The R.M. Council will appoint a council member to the committee.
3. Council will provide meeting space, a limited photocopying expense account and an annual operating fund of \$2,000.00.
4. The Committee will be encouraged to invite representatives from government agencies such as Saskatchewan Environment, Saskatchewan Watershed Authority, Oceans and Fisheries, etc. when required to discuss issues that include shared responsibility.
5. The purpose of the Committee is to advise council on environmental issues that could come from the representative cottage owner association or our council.
